

# Groutable Resilient Tile Flooring

Change the way you think about self-stick vinyl tile. It's easy to see....and feel...that Ceramica Groutable Tile is unlike any other self-stick tile. Realistic embossing gives Ceramica the rich texture and low-gloss look of designer tiles. PLUS, Ceramica can be installed with grout for a remarkably authentic ceramic tile look. With or without grout, the look and feel of Ceramica is as close to real ceramic as you can get. It's a beautifully realistic flooring product that is...

- Easy To Install Yourself
- Comfortable and Quiet Underfoot
- Remarkably Durable

Ceramica is available in two sizes, which allows you to create your own totally unique floor if you desire. Choose from 12"x12" squares or 12"x24" rectangles, or mix and match sizes and colors to create unique patterns, adding visual interest and highlights.

- Grout or No Grout
- One Color, One Size or Mix & Match
- Lifelong Durability

See why we say you've never seen, or felt, anything like Ceramica!

## Installation Styles

### WITH GROUT

Unique rounded edge tiles allow the option of grout-able seams for a clean, finished appearance. Easy install with Custom Simple Grout and a rubber trowel.

### WITHOUT GROUT

Rounded edge tiles with no grout provide a rich, warm, and casual appearance. Achieve a realistic ceramic effect with or without grout. It's your option.

# Easy Installation

# Groutable Resilient Tile

## Ordering is easy as 1-2-3!

- 1 Make your selection from this brochure.
- 2 Fill out the order form including the quantity, SKU, price, and description of products needed. Be sure to include your name, address and phone number.
- 3 Take the completed order form to the Services Desk to place your order.

- 1 Before installation, your subfloor must be clean, level and dry. Use a Portland based patch if necessary and suitable primer over entire subfloor.
- 2 Place tiles in position, leaving space for grout. Press tiles against sub-floor for good contact.
- 3 Using the grout float, press the dispensed grout into the grout joints. Rake the float diagonally at a 45° angle across the tile surface while exerting a downward pressure. Remove all excess grout from the tile surface. Use damp sponge to smooth grout joints and clean off any remaining excess grout.

## How much flooring do you need?

- Measure the length & width of your room. If your room has alcoves or offsets, measure these areas separately
- Each tile carton contains 30 sq. ft. of flooring
- Recommended purchase of 10% extra will account for trimming variations or cutting floor pieces. The chart below calculates this overage for you

Room Size	10'	11'	12'	13'	14'	15'	16'	17'	18'	19'	20'	21'	22'	23'	24'	25'	26'	27'	28'	29'	30'
